CSS3, Tailwind CSS, SASS/LESS

JavaScript - DOM Manipulation & AJAX

jQuery

Progressive Enhancement & Accessibility

Responsive & Mobile-First Design

Moreno Rubio, Juan Andrés

20 years of experience

Full-stack developer specialized in high-availability systems. I've worked on Olympic Games platforms, airport authentication systems with millions of users, and built around 20 websites for diverse sectors (e-commerce, enterprise, institutional). Certified SAP Customer Data Cloud consultant, advising 35-40 international clients on digital identity solutions.

◣ Training

Computing Engineering, Bachelor's Degree (1999-09-2009-02) obtained from the Universidad de Extremadura (Cáceres, Spain)

✦ Skills

Full-stack developer with experience in Go, Node.js, React, and HTMX for modern applications, plus Java and PHP knowledge for legacy projects. I've worked on around 20 websites and provided consulting for 35-40 international clients, from e-commerce and enterprise platforms to authentication systems managing millions of users. Familiar with AI-assisted development workflows and infrastructure management (Linux, Docker, CI/CD). I adapt well to both independent work and collaborative teams across different countries.
